“

The Acme Adventurer Rocket has thwarted my Illudium Q-36 Explosive Space Modulator on several occasions. *This makes me very, very angry!* Nevertheless, K-9 and I have awarded Acme the Martian contract for space exploration rockets based on Acme's quality and sturdy designs.

“

I knew I not only wanted — *I needed* — Acme's Infinity Rocket for my mission in space. Acme delivered in one day! Nothing says “*Take me to your leader*” like Acme's Infinity Rocket! *👍*
